Hard riffs, melodic groove, clear vocals and sinister shouts - if you thought that could not be done then UNFORGED will teach you a lesson. As the name UNFORGED promises, these guys don't beautify anything and let the unpolished from all of us be 'unforged'.

UNFORGED emerged from the famous metal scene Essen, Germany. The Band was founded 2018 by the 19-year-old guitarist Mika Alva, his dad Nico Alva on drums and shouter/singer Chrys. The line-up was completed with Blouey on the second guitar and finally Streiti on bass.

Their lyrics come straight from our lives and hit the nail on the head. Rampages? Criticism of regimes? Oppression in everyday life? These guys from Essen, Germany, are dealing with such often difficult themes.

UNFORGED were able to get Corny Rambado (Rambado Recording / ao SODOM, The Very End, Harkon and others) and Dennis Koehne (Orden Ogan, Exumer etc.) for their debut single "Fight for your life" on board. The single impresses with punchy production and emotion-filled songwriting, which is catchy and really 'unforged'.

"Fight For Your Life" by UNFORGED was released in spring 2019. The first long player is in preparation and will be produced by the same recording / mastering team. From June 2019 UNFORGED is ready to rumble again and will rock the stages. We look forward to seeing you!
